THERMAL SOLUTIONS

Pyrotex Firesleeve

Silicone-coated fiberglass sleeving insulates and protects from flame, molten splash, and continuous temperatures up to 500°F.

- Knitted and braided constructions
- 1/4" through 6" ID size range
- 7 Coating colors available

Pyrotherm Sleeve & Rope

Highly texturized fiberglass insulates, seals, and protects systems facing continuous exposure to temperatures up to 1000°F.

- 1/8" & 1/16" sleeve wall thickness
- 1/8" through 1-1/2" rope diameter
- Economical system protection

Meta-Tex Aramid Sleeve

Braided meta-aramid sleeve insulates and protects against heat and flame. Made with DuPont™ Nomex® fiber.

- 1/8" through 2" ID range

Pyrotherm HS

Saturated braided fiberglass sleeve insulates & resists end fray and wear.

- 1/4" through 4" ID range
- 7 Sleeve colors available

ReflectTherm STS

Lightweight aluminized fiberglass heatshield reflects 80+% of radiant energy away from components.

- 1/2" through 4" ID range

Pyrotherm HT

Heat-cleaned fiberglass braided insulating sleeve provides attractive and expandable protection to 1000°F.

- 1/4" through 4" ID range

ABRASION SOLUTIONS

Para-Tex Aramid Sleeve

Braided protective sleeve made with DuPont™ Kevlar® fiber.

- 1/4" through 4" ID range
- 6 Sleeve colors available

Tufftex HLC

Urethane-coated ballistic Nylon with Velcro® bundles and protects against abrasion in all weather conditions.

- 1" through 8" ID range

Tufftex W

Woven Nylon multifilament sleeve protects against abrasion and UV in aggressive environments.

- 11/16" through 3-5/8" ID range

Spiral Guard Wrap

Durable and weather-resistant HDPE protective spiral bundles and protects against abrasion and external wear.

- 3/8" through 5-1/2" size range

610-518-6601

SYSTEMS PROTECTION SOLUTIONS

Atlantex Manufacturing Corporation has rapidly grown to be a world leader in the manufacture of solutions-based technical textiles serving the industrial, automotive, and appliance markets. As a vertical manufacturer of high-temperature and abrasion-resistant textile products, Atlantex offers unmatched value and dependability. We take a great deal of pride in our products, and after decades of continual process improvement and market feedback, we truly believe that Atlantex provides the **highest quality** and **best value** in the systems protection industry.

THE ATLANTEX ADVANTAGE

QUALITY

ISO 9001:2015 Registered Quality Management System

UL-Recognized Components

PPAP Documentation

INNOVATION

Customized product design and fabrication capabilities

Versatile material processing

In-depth application knowledge

SERVICE

Extensive inventory and multiple warehouse locations

Family owned and operated

USA manufacturer
